RVH Atrium entrance temporary closure

The level 2 “Atrium” entrance at Royal Victoria Regional Health Centre (RVH) will be closing for approximately 10 weeks for the installation of new revolving doors. This is also known as the ‘orange’ entrance with the three flagpoles.

Visitors, vendors and others who use this entrance will be directed a few short steps to the left through the existing level 2 staff entrance. Volunteers will be stationed at this temporary entrance Monday to Friday 8 a.m. to 4 p.m. to assist with directions.

The temporary entrance is a fully accessible entrance. There will be no disruption to the driveway loop at the Atrium entrance or parking drop off / pick up for patients or for patient transfer vehicles.

Visitors to the health centre are reminded this is a no parking zone – brief patient drop off / pick up is permitted.
