Tips when taking oral cancer therapy:

1. Tell your other doctors, dentists or healthcare providers that you are taking pills/tablets for your cancer.

2. Keep the pills/tablets away from children and pets and in a childproof container.

3. Keep the pills/tablets in the original container, unless otherwise directed. It could be dangerous to mix with other pills.

4. Wash your hands before and after handling the pills/tablets.

5. Do not crush, chew, cut or disrupt your pills/tablets unless directed otherwise

6. Have a system to make sure you take your pills/tablets at the right time. Try a timer, clock or calendar.

7. Make sure you have directions about what to do if you miss a dose.

8. If you accidentally take too many pills or if someone else takes your pills/tablets, contact your doctor or nurse immediately.

9. Bring unused pills back to your pharmacy.

10. Let us know if you have a problem with paying for or getting your pills.

11. Plan ahead for travel, refills and weekends.
