

The Adult Mental Health & Addiction Program accepts referrals where there is a **PRIMARY PSYCHIATRIC CONCERN**. We provide short term consultation and stabilization for a maximum of 6 months. Referrals that are not appropriate or incomplete will not be processed and all referrals will be screened.

We do not provide assessments for: Legal, Insurance, Custody, CAS, WSIB, or Forensic reasons.

We are not able to accept referrals for assessment/treatment where the primary concern relates to:

- | | | |
|------------------|--|---------------------|
| Chronic Pain | Autism Spectrum Disorder | Developmental Delay |
| Anger Management | Relationship or individual counselling | Eating Disorder |
| Second Opinions | | |

- Is the patient involved in current/pending legal, compensation or insurance claims? Yes No
- Has the client consented to services? Yes No
- Last office visit: _____

If you have a concern that a patient is currently suicidal or homicidal please direct them to the Emergency Department
