Meals To Go

Our Menu

A healthy, balanced diet has never been easier! Our Meals To Go menu offers a wide variety of appetizing, affordable, home-style meals, inspired and freshly prepared by our Red Seal Chefs.

Based on Canada's Food Guide, our delicious meals, soups and desserts are planned to fuse nutritional value with great taste. To preserve freshness, our meals are quickly frozen and ready to be heated in the oven or microwave and enjoyed.

Our chefs prepare our meals using only the finest ingredients and highest standards. Our meals are prepared with controlled levels of sodium and fat and are appropriate for heart healthy and diabetic meal plans. On a special diet? We can accommodate a full range of therapeutic and texture-modified meals - anything from renal, vegetarian and gluten-free, to pureed and minced. Just let us know your restrictions and/or allergies and we will customize your meals to ensure any choice you make is both appropriate and satisfying. For your reference, nutritional labelling is displayed on each meal.

Supporting independence as well as nutritional, well-rounded diets, our Meals To Go menu is so easy, affordable and delicious, you are sure to find some favourites. Enjoy!
